

## Design Intent

Hamilton City Council intends to make the following improvements to Heaphy Terrace shopping area between Winter Street and Alfred Street.

A clear layout for pedestrian, cyclist and vehicular circulation.

A defined cycle route through the shopping precinct with distinct cycle racks.

Decorative paved footpaths at the entrances to the shopping area

New central pedestrian refugia island to improve safety

An improvement of the character and amenity, through using soft landscaping and street trees.

Replacement of kerb and channel

Soft Landscape

Improvement of soft landscape by strengthening the existing street tree layout with mass planting of Day Lilies and Yellow New Zealand Iris

## Key

-  Asphalt footpath
-  Asphalt Driveways
-  Paved footpath areas
-  Proposed plant areas
-  Proposed Cycle lanes
-  Proposed parking areas
-  Proposed traffic island
-  Proposed rubbish bins
-  Proposed seats
-  Proposed cycle racks
-  Existing Trees
-  Proposed Trees

## Typical Cross-Section

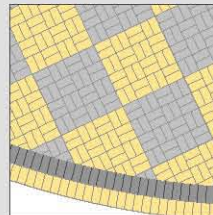

# HEAPHY TERRACE UPGRADE

## Pavement

Paving layout to identify and connect the central area with the surrounding precinct by utilizing a repeating running bond trim with a diverse checkered infill pattern
